# Approval

**Approval-ID:** BZS D 24-601

**Tested component:** fischer Strong Undercut Anchor  
FSU M10 - M12

**Approved supplier:** SFS Group Schweiz AG  
Grabenackerstrasse 8  
CH-4142 Münchenstein

**Valid until:** 31 March 2034

According to the results of the assessment of the technical documentation, the aforementioned component meets the requirements set by the Federal Office for Civil Protection. It is thus approved for use in Swiss Protection & Support shelters and facilities.

The present Approval is only valid when signed by both the approved supplier and the Certification Office FOCP.

Approved supplier

*J. Lamm*

SFS Group Schweiz AG

CH-4142 Münchenstein

Münchenstein, 26.03.2024

The present approval is based on the Federal Office for Civil Protection technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.

The approved supplier is responsible for the overall quality of the product. The FOCP will test the components chiefly to ascertain that they meet its specific construction requirements.

The present approval is based on the following documents:

- Assessment Report (enclosed) N° 2353.2 dated 07 Mar 2024
- European Technical Assessment ETA-22/0674 dated 26 Jul 2023

By signing the present certificate, the approved supplier recognises the legal obligations set out in the FOCP technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.

**Please note:**

- The approval relates exclusively to the requirements contained in the established normative documents on EMP protection and shock resistance set out in the FOCP technical directives "Quality Management of Tested Components for Use in Protection & Support Shelters and Facilities" 1750-026 of 15 May 2014.
- The approved supplier bears sole responsibility (product liability) for compliance with other technical specifications, with generally binding and product-related regulations, as well as with technical, safety and environmental standards.
- In the event of abuse or deceptive use of the present approval, it will be unconditionally withdrawn in accordance with the aforementioned directives.
