**Specific Part****1 Technical description of the product**

The fischer Heavy-duty anchor TA M, TA M S and TA M T in the range of M6, M8, M10 and M12 is an anchor made of galvanised steel which is placed into a drilled hole and anchored by torque-controlled expansion with the hexagon head bolt.

The product description is given in Annex A.

**2 Specification of the intended use in accordance with the applicable European Assessment Document**

The performances given in Section 3 are only valid if the concrete screw is used in compliance with the specifications and conditions given in Annex B.

The verifications and assessment methods on which this European Technical Assessment is based lead the assumption of working life of the concrete screw of at least 50 years. The indications given on the working life cannot be interpreted as a guarantee given by the producer, but are to be regarded only as a means for choosing the right products in relation to the expected economically reasonable working life of the works.

**3 Performance of the product and references to the methods used for its assessment****3.1 Mechanical resistance and stability (BWR 1)**

| Essential characteristic                                                                 | Performance             |
|------------------------------------------------------------------------------------------|-------------------------|
| Characteristic resistance to tension load<br>(static and quasi-static loading)           | see Annex C 1           |
| Characteristic resistance to shear load<br>(static and quasi-static loading)             | see Annex C 2           |
| Displacements (static and quasi-static loading)                                          | see Annex C 2           |
| Characteristic resistance and displacements for seismic performance categories C1 and C2 | No performance assessed |

**3.2 Safety in case of fire (BWR 2)**

| Essential characteristic | Performance             |
|--------------------------|-------------------------|
| Reaction to fire         | Class A1                |
| Resistance to fire       | No performance assessed |

**4 Assessment and verification of constancy of performance (AVCP) system applied, with reference to its legal base**

In accordance with European Assessment Documents EAD No. 330232-00-0601 the applicable European legal act is: [96/582/EC].

The system to be applied is: 1

**Pre-positioned installation:****TA M**

The hexagon head screw and the washer according to table A4.1 and A4.2 must be provided by the user

**TA M S**

The hexagon head screw is provided by the manufacturer (fischer) together with the anchor

**In-place installation:****TA M T**

- |                            |                        |
