

## DECLARAÇÃO DE DESEMPENHO

N.o 0015 – PT

1. Código de identificação único do produto-tipo: **fischer Anchor bolt FBN II, FBN II A4**
2. Utilização(ões) prevista(s):

Produto	Utilização/ões pretendida/s
Âncora de expansão controlada por binário	Fixação pós-instalada em betão não fissurado, Ver anexo, especialmente anexos B 1 - B 3

3. Fabricante: **fischerwerke GmbH & Co. KG, Klaus-Fischer-Straße 1, 72178 Waldachtal, Alemanha**

4. Mandatário: --

5. Sistema(s) de avaliação e verificação da regularidade do desempenho (AVCP): **1**

6a. Norma harmonizada: ---

Organismo(s) notificado(s): ---

6b. Documento de Avaliação Europeu **ETAG 001; 2013-04**

Avaliação Técnica Europeia **ETA-07/0211; 2016-05-19**

Organismo de Avaliação Técnica: **DIBt**

Organismo(s) notificado(s): **1343 – MPA Darmstadt**

7. Desempenho(s) declarado(s):

### Resistência mecânica e estabilidade (BWR 1)

Característica essencial	Desempenho
Resistência característica para cargas de tensão e cisalhamento	Ver anexo, especialmente anexos C 1 e C 2
Distâncias de borda e espaçamento	Ver anexo, especialmente anexos C 1 e C 2
Deslocamentos sob tensão em cargas cisalhantes	Ver anexo, especialmente anexo C 3

### Segurança em caso de incêndio (BWR 2)

Característica essencial	Desempenho
Reacção ao fogo	As fixações satisfazem os requisitos da Classe A 1
Resistência ao fogo	NPD

8. Documentação Técnica Adequada e/ou Documentação Técnica Específica: ---

O desempenho do produto identificado acima está em conformidade com o conjunto de desempenhos declarados. A presente declaração de desempenho é emitida, em conformidade com o Regulamento (UE) n.o 305/2011, sob a exclusiva responsabilidade do fabricante identificado acima.

Assinado por e em nome do fabricante por:

Andreas Bucher, Dipl.-Ing.

Wolfgang Hengesbach, Dipl.-Ing., Dipl.-Wirtsch.-Ing.

Tumlingen, 2016-05-25

- Este DoP foi preparado em diferentes línguas. Em caso de litígio sobre a interpretação, a versão em inglês prevalecerá sempre.

- O Anexo inclui informações voluntárias e complementares em inglês que excedem os requisitos legais (linguisticamente especificados).

**Specific Part**

**1 Technical description of the product**

The Fischer Bolt anchor FBN II and FBN II A4 is an anchor made of zinc plated, hot-dip galvanised or stainless steel which is placed into a drilled hole and anchored by torque-controlled expansion.

Product and product description is given in Annex A.

**2 Specification of the intended use in accordance with the applicable European Assessment Document**

The performances given in Section 3 are only valid if the anchor is used in compliance with the specifications and conditions given in Annex B.

The verifications and assessment methods on which this European Technical Assessment is based lead to the assumption of a working life of the anchor of at least 50 years. The indications given on the working life cannot be interpreted as a guarantee given by the producer, but are to be regarded only as a means for choosing the right products in relation to the expected economically reasonable working life of the works.

**3 Performance of the product and references to the methods used for its assessment**

**3.1 Mechanical resistance and stability (BWR 1)**

Essential characteristic	Performance
Characteristic resistance for tension and shear loads in concrete	See Annex C 1 and C 2
Edge distances and spacing	See Annex C 1 and C 2
Displacements under tension and shear loads	See Annex C 3

**3.2 Safety in case of fire (BWR 2)**

Essential characteristic	Performance
Reaction to fire	Anchorage satisfy requirements for Class A1
Resistance to fire	No performance determined (NPD)

**3.3 Safety in use (BWR 4)**

The essential characteristics regarding Safety in use are included under the Basic Works Requirement Mechanical resistance and stability.

**4 Assessment and verification of constancy of performance (AVCP) system applied, with reference to its legal base**

In accordance with guideline for European technical approval ETAG 001, April 2013 used as European Assessment Document (EAD) according to Article 66 Paragraph 3 of Regulation (EU) No 305/2011 the applicable European legal act is: [96/582/EC].

The system to be applied is: 1

Cone bolt manufactured by cold - forming:

Cone bolt manufactured by turning:

- ① Cone bolt (cold – formed or turned)
- ② Expansion sleeve
- ③ Hexagon nut
- ④ Washer

- $h_{ef}$  = Effective anchorage depth
- $t_{fix}$  = Thickness of fixture
- $h_1$  = Drill hole depth
- $h_{min}$  = Thickness of concrete member
- $T_{inst}$  = Required torque moment

**Specifications of intended use**

fischer Bolt Anchor FBN II, FBN II A4		M6	M8	M10	M12	M16	M20
Material	Steel	Zinc plated		✓			
		Hot-dip galvanized		-	✓		
	Stainless steel	A4		✓			
Static and quasi-static loads				✓			
Reduced anchorage depth		-			✓		
Uncracked concrete				✓			

**Base materials:**

- Reinforced and unreinforced normal weight concrete according to EN 206-1:2000
- Strength classes C20/25 to C50/60 according to EN 206-1:2000

**Use conditions (Environmental conditions):**

- Structures subject to dry internal conditions (FBN II (zinc plated / hot-dip galvanized), FBN II A4)
- Structures subject to external atmospheric exposure (including industrial and marine environment) and to permanently damp internal condition, if no particular aggressive conditions exist (FBN II A4). Such particular aggressive conditions are e.g. permanent, alternating immersion in seawater or the splash zone of seawater, chloride atmosphere of indoor swimming pools or atmosphere with extreme chemical pollution (e.g. in desulphurization plants or road tunnels where de-icing materials are used)

**Design:**

- Anchorages are to be designed under the responsibility of an engineer experienced in anchorages and concrete work
- Verifiable calculation notes and drawings are to be prepared taking account of the loads to be anchored. The position of the anchor is indicated on the design drawings (e.g. position of the anchor relative to reinforcement or to supports, etc.)
- Anchorages under static or quasi-static actions are to be designed in accordance with:
  - ETAG 001, Annex C, design method A, Edition August 2010 or
  - CEN/TS 1992-4:2009, design method A

**Installation:**

- Anchor installation carried out by appropriately qualified personnel and under the supervision of the person responsible for technical matters of the site
- Hammer or hollow drilling according to Annex B3
- In case of aborted hole: New hole must be drilled at a minimum distance of twice the depth of the aborted hole or closer, if the hole is filled with a high strength mortar and only if the hole is not in the direction of the oblique tensile or shear load

<sup>1)</sup> Values for FBN II A4

**Table C4:** Displacements due to shear loads

Type of anchor / size <b>FBN II, FBN II A4</b>			<b>M6</b>	<b>M8</b>	<b>M10</b>	<b>M12</b>	<b>M16</b>	<b>M20</b>
Shear load FBN II	V	[kN]	3,4	7,6	12,0	17,9	31,5	38,2
Displacements FBN II	$\delta_{V0}$	[mm]	0,7	1,5	1,6	2,0	3,0	2,6
	$\delta_{V\infty}$	[mm]	1,1	2,3	2,4	3,0	4,5	3,9
Shear load FBN II A4	V	[kN]	3,0	7,3	11,6	15,7	29,1	49,0
Displacements FBN II A4	$\delta_{V0}$	[mm]	1,5	1,4	2,1	2,6	2,7	4,6
	$\delta_{V\infty}$	[mm]	2,3	2,2	3,2	3,9	4,1	7,0

fischer Bolt Anchor FBN II, FBN II A4

**Performances**  
Displacement under tension and shear loads
