

# Loads

## Stand-off installation TherMax 8 and 10

Recommended tensile loads<sup>1)</sup> for a single anchor in wood.

Type		TherMax 8	TherMax 10
Recommended tensile loads in the respective base material N <sub>rec</sub> <sup>2)</sup>			
Beech ≥ D35	[kN]	1.00 <sup>3)</sup>	1.00 <sup>5)</sup>
Spruce ≥ C24	[kN]	1.00 <sup>4)</sup>	1.00 <sup>5)</sup>

<sup>1)</sup> Required safety factors are considered.

<sup>2)</sup> Installation without UX plug. Edge distances and spacings following Eurocode 5.

<sup>3)</sup> Pre-drilled wood with diameter 6 mm.

<sup>4)</sup> Pre-drilled wood with diameter 5 mm.

<sup>5)</sup> Pre-drilled wood with diameter 7 mm.
