

# Textile web strapping GWB

Textile web strapping GWB for cost-effective, easy pipe fixings

8

Flexible and rigid plastic insulation pipes

## Applications

- Pipe fixing to the substrate e.g. to the raw floor.

## Advantages

- Pipe fixing using textile tape allows cheap and simple installation.
- The textile tape roll allows the correct tape length to be chosen to suit the dia-

meter in question.

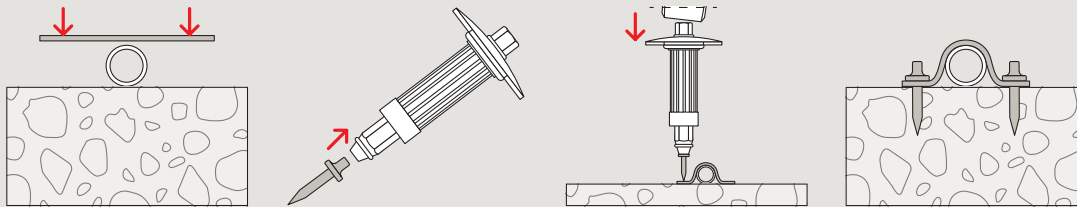

- Hangings with textile tape are a fast solution for temporary fixings.

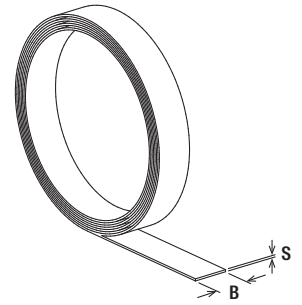

## Building materials

### When using impact nail ED:

- Concrete

## Installation GWB

## Technical data
