

Accessories steel anchors

Clever hammering aid for fast installation.

Long Description

The Upat setting tool USA-SWZ, made of metal, ensures a safe and fast expansion of the Upat impact anchor USA with its unique mechanism. The setting tool enables optimal expansion with just a few hammer blows and leaves four embossed markings at the top of the anchor when correctly installed.

Advantages

- **Secure Installation:** The ideal setting tool for easy and secure installation of the drive anchor USA
- **Easy Installation:** Optimal expansion of the drive anchor with few hammer blows
- **Safe Post-Installation Check:** Upon correct installation, the setting tool marks the edge of the drive anchor
